FALL 2009

NEW 2009 CHALET WOODS® Wood Blinds Sample

Book offers consumers an extensive color palette including painted finishes, four new popular home décor stained finishes, Specialty Finishes including distressed, three new antique finishes with an “aged” rub-thru look and finally three new enhanced grain finishes resembling beautiful cherry wood grain. A total of thirty-two finishes are available in both the 2-inch and 2 ½-inch slat sizes. New options for the 2 ½-inch slats include LiteRise safety operating system and a new wand tilt option to eliminate cords. Our impressive 3 ¼-inch Chancellor™ Valance is now available at no additional charge on Painted, Stained and Distressed Finishes! Chalet Woods® Wood Blinds, designed for consumers who want Hunter Douglas quality at an affordable price.

NEW 2009 DESIGNER SCREEN SHADES Sample

Book showcases eight fabric collections including Catalina, Del Sol, Grass Hut, Striae, Gemini, Lumen, Orion and Pegasus. Plus 5 line extensions with updated colors for a total of 75 new fabrics! New options for Designer Screen Roller & Roman Shades include:

- Cordless lifting system for enhanced child and pet safety
- Round bottom bar for symmetry between the top & bottom of shade
- Decorative metal end caps in flat or beveled styles
- Faux wood slat option can be used in place of the standard round bottom bar for a sleeker look
- Motorization options for shades up to 192” wide

All Designer Screen Shade fabrics allow view-through while providing ultraviolet protection, additionally, many fabrics are GREENGUARD Indoor Air Quality Certified®!

Introducing the HARMONY PROGRAM™

Coordinate the look of doors and windows from room to room or throughout the entire home with today's Harmony Program. Select from over 30 fabric collections found in Designer Roller Shades, Designer Screen Shades or Skyline Gliding Window Panels to provide an exact match or coordinating cohesive look.

LUMINETTE® Modern Draperies This break-through line enhancement offers customers two new woven drapery fabrics called Satinee and Shantung that provide superior coordination with Vignette Modern Roman Shades Satin Weave and Shantung fabric for the Whole House Solution. Modern Draperies are available with two distinct application options: Full Panel and Dual Panel. Both are offered in split stack and side stack designs. Full Panel draperies traverse only; the vanes do not tilt, but rather serve the function of providing structural support to give the draperies a smooth, consistent look. Dual Panel draperies are drapery panels framing a fully functional Luminette sheer. The drapery panels are fixed in position; when the sheer is drawn open, the drapery panels do not stack. To complement both Luminette Privacy Sheers and Luminette Modern Draperies, we are introducing three NEW hardware colors that include Oro, Umber and Mica. Finally, to attract more price-sensitive buyers, Luminette Privacy Sheers will now offer Summer Breeze fabric as the opening price point for this product category.

Introducing the SKYLINE™ BOUTIQUE COLLECTION

this exclusive collection of new fabrics was designed for today's lifestyle. Featuring 10 new styles of fabrics in over 40 color options, created to sell with a luxury look at an affordable price. The Skyline Boutique Collection features opening price point fabrics in each of the five fabric style categories: sheer, screen, semi-opaque, opaque, naturals and woven grass. All fabrics and colors in the Boutique Collection are available in the Harmony Program™.

NEW 2009 PALM BEACH POLYSATIN SHUTTERS

introduces an "all new", redesigned line to simplify the selling process. Increased product selection will give dealers a unique competitive advantage with reduced retail pricing and cross-selling coordination within the Custom Shutter Collection. The new Palm Beach polysatin shutter is easier to assemble and install in the field and designed to grow your shutter sales.

NEW LITERISE TRIMKIT for ¾" Duette & Applause

Introducing the new LiteRise TrimKit option for fall. Reduce drafts and light gaps, while creating an insulating barrier at the window by sealing the gap between the shade and window frame. The new LiteRise TrimKit option is available on all ¾" Duette and Applause single cell fabrics and is available for inside mount shades. *Consumers should consult their tax advisor to determine whether a portion of the purchase qualifies for the energy income tax credit.*

TrimKit need to know:

- TrimKit is available on standard, Top-down/Bottom-up and Duolite LiteRise.
- Channels attach to the sides of the window frame with magnets, making them easy to remove for window cleaning. (Because of this configuration of the side channels, there is no way to attach them to a wall.)
- Shades already in the home are not retrofittable because the fabric must be notched in order to fit into the side channels.
