INFORMATION	44
------------------------------	----

Use this handy guide to tell consumers about the top selling points of every Hunter Douglas product. All of our products offer:

- **Enhanced child safety**
- **Energy efficiency**
- **Hunter Douglas Lifetime Guarantee**

Many of our products are GREENGUARD Indoor Air Quality Certified® and are designed and custom-assembled in the USA.

Operating Systems

Below are some of our most popular operating systems.

- **Combination Wand/Cord** — Single control to traverse the fabric and rotate the vanes.

- **Cordlock** — Original lifting system with quiet and reliable operation.

- **EasyRise™** — Continuous cord loop and clutch system to easily raise or lower large shades.

- **LiteRise®** — Virtually eliminates cords and enables blinds to raise or lower with the touch of a finger.

- **UltraGlide®** — Retractable pull-cord system that keeps the cord at a constant length, whether the shade is raised or lowered.

- **Motorization** — Wireless control system operated with a hand-held remote or wireless wall switch.

Applause® honeycomb shades

From Hunter Douglas, makers of Duette®, the original honeycomb shade.

- **Honeycomb construction** — Available in single, double or triple honeycomb construction, which provide excellent insulation.
- **Patented TruePleat™ construction** — Keeps every shade crisp and consistent from top to bottom and front to back.
- **Streamlined selection** — Four unique fabrics and over 45 colors combine to offer exceptional value.
- **Fabric opacities** — Range from sheer to blackout to maximize privacy and light control.
- **Motorization** — Patented PowerRise® 2.0 with Platinum™ Technology. Control shades with a sleek, hand-held remote or wireless wall switch.

Bridgeway® specialty shapes

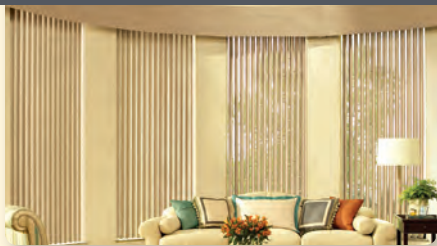

- **Construction** — Custom-built using advanced man-made materials for strength, stability and straightness.
- **Rabbeted louvers** — Designed with a built-in light stop to block 99% of ultraviolet rays.
- **Selection of 20 colors** — To coordinate with other Hunter Douglas products.
- **Superior finish** — Finely painted for a beautiful look and feel.
- **Perfect and imperfect specialty shapes** — A wide variety to cover the vast majority of shaped windows.

Brilliance® pleated shades

- **Fabric options** — Diverse fabric styles and a full color palette for numerous options.
- **Privacy/View shades** — Combine sheer and opaque fabrics in one shade for stylish light control.
- **Top-Down/Bottom-Up shades** — Let in light from the top while maintaining privacy at eye-level.
- **Two-On-One Headrail shades** — Easily cover large window openings.
- **High-performance hardware system** — Utilizes the best cordlock in the industry.
- **Motorization** — Patented PowerRise® with Platinum™ Technology. Control shades with a sleek, hand-held remote or wireless wall switch.

Cadence® Soft Vertical Blinds

- **Motif™ fabric and Impressions™ vinyl louvers** — Patented, proprietary curved profile for a draped fabric appearance.
- **Paramount® Contoured Headrail** — Elegant design reducing light gaps and providing a symmetrical fit.
- **DualFold™ double-tiered valance** — Features molded corners and curved edges. Included with every blind.
- **SoftChoice® Top Treatments** — Three top treatment styles, custom-made, using any fabrics found in the Cadence® Fabric by the Yard program.
- **Fabric by the Yard program** — For perfectly matched customized accessories.

Chalet Woods® wood blinds

- **Two slat sizes** — Available in both the traditional 2" and the wider 2½" slat sizes in all Chalet® Woods colors.
- **EPIC™ operating system** — Ensures the smoothest and most efficient blind operation in the industry.
- **de-Light™ routless design feature** — Eliminates cord holes to block out unwanted light for maximum privacy and light control.
- **LiteRise® cordless lifting system** — For enhanced child safety. Upgrade option available for both 2" and 2½" slat blinds.
- **Two valance choices** — A 3" tall standard valance or optional 3¼" Chancellor™ valance at no additional cost.

Country Woods® Exposé™ wood cornices

- **Hand-assembled and hand-finished** — For the finest quality by genuine craftsmen in the USA.
- **Perfect topper** — Looks perfect over any Hunter Douglas window fashion or drapery treatment.
- **Six profile styles** — In heights ranging from 6" – 12" tall.
- **Coordination** — Available in the Country Woods® wood blind colors or offered as unfinished cornices that can be painted or stained to any desired finish.
- **Customization** — With a choice of design options such as keystones, carved wood appliqué and a decorative plate groove.

Country Woods® wood blinds

- **TopShield™ II Finish** — Provides the ultimate protection against everyday wear including fading, moisture, surface scratches and chemicals.
- **EPIC™ operating system** — Ensures the smoothest and most efficient blind operation in the industry.
- **Endless decorating options** — The largest collection of slat sizes, colors, decorative tapes, valance styles and keystones.
- **LiteRise® cordless lifting system** — Offers enhanced child and pet safety.
- **Specialty shapes** — To cover the widest range of uniquely shaped windows.
- **Motorization** — PowerTilt™ with Platinum™ Technology, a battery-powered remote control tilt system.

Crosswinds® Wood Vertical Blinds

- **100% basswood vanes** — Made with finger-jointed construction and a multiple-step wood grain finishing process.
- **Crestover™ wood valance** — Standard with every order.
- **PermAlign® Headrail** — Guaranteed to keep vertical blinds in perfect alignment.
- **TopShield™ Finish** — Applied to every vane and valance for the ultimate protection.
- **Complements® program** — To coordinate with Country Woods® wood horizontal blinds.

Designer Roller Shades

- **Largest fabric collection** — Combines simplicity with texture in fabrics from sheer to opaque.
- **Dual Roller Shade option** — Two shades operate independently in one large cassette.
- **Harmony Program™** — Choose from nearly 300 fabrics in multiple product styles — Skyline® Gliding Window Panels, Designer Roller Shades or Designer Screen Shades.
- **Decorative options** — Customize your shade with our vast array of top and bottom treatments.
- **Cordless operation** — Perfect for homes with small children and pets.
- **Motorization** — Patented PowerRise® 2.0 with Platinum™ Technology. Control shades with a sleek, hand-held remote or wireless wall switch.

Designer Screen Shades

- **Largest fabric collection** — Openness factors range from 0 – 15%.
- **Ultraviolet (UV) protection** — Protect furnishings against UV damage while maintaining view-through.
- **Options** — From the versatility of the Harmony Program™ and Choices program to the broad range of top and bottom treatments.
- **Easily cover large openings** — Widths up to 20' with coupled hard-wired motorization; up to five panels.
- **Motorization** — Patented PowerRise® 2.0 with Platinum™ Technology. Control shades with a sleek, hand-held remote or wireless wall switch.

Duette® Architella® honeycomb shades

Exclusive to Hunter Douglas, makers of Duette®, the original honeycomb shade.

- **Superior energy efficiency** — Patented honeycomb-within-a-honeycomb construction features three distinct air pockets that reduce energy loss at the window by up to 50%.
- **Vibrant colors** — Colors and textures are preserved in bright sunlight and on opaque fabrics.
- **Patented TruePleat™ construction** — Keeps every shade crisp and consistent from front to back and top to bottom.
- **Motorization** — Patented PowerRise® 2.0 with Platinum™ Technology. Control shades with a sleek, hand-held remote or wireless wall switch.

Duette® honeycomb shades

From Hunter Douglas, makers of the original honeycomb shade.

- **Honeycomb construction** — Available in our patented Architella®, and single, double or triple honeycomb construction.
- **Energy efficient** — Honeycomb air pockets provide excellent insulation.
- **Abundant selection** — Ten distinctive fabric styles, over 105 colors and 10 innovative operating systems.
- **Exclusive 1¼" pleat size** — Offers the most dramatic honeycomb look.
- **Light control** — Four opacities for a wide range of privacy and light control options.

Duette® honeycomb shades cont'd

- **Patented TruePleat™ construction** — Keeps every shade crisp and consistent from front to back and top to bottom.
- **Specialty shapes** — Cover virtually any window including arches, quarter circles, circles, angles, trapezoids, hexagons and octagons.
- **Easy-care fabrics** — All fabrics are anti-static, dust- and soil-resistant to maintain their beauty for years to come.
- **Fabric-covered valance** — Offers superior color coordination and a uniform appearance on multiple systems.
- **Patented UltraGlide® system** — Provides effortless and enhanced child-safe operation; just click and walk away.
- **LiteRise® Cordless lifting system** — Offers enhanced child and pet safety.
- **Motorization** — Patented PowerRise® 2.0 with Platinum™ Technology. Control shades with a sleek, hand-held remote or wireless wall switch.
- **Compact stacking** — Minimal height of shade when fully raised allows for uninterrupted views.

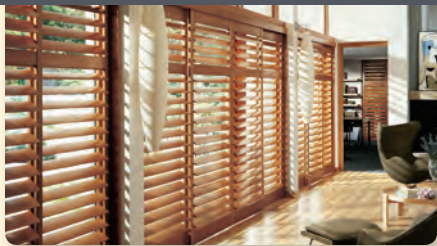

See page 40 for details about Alustra® Duette® honeycomb shades.

EverWood® Collection alternative wood blinds

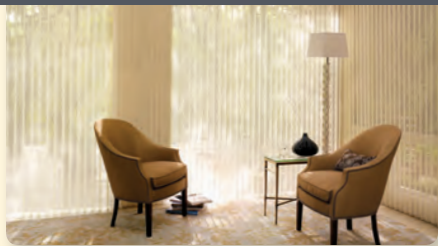

- **Colorfast formulation** — Color resists fading and discoloration from prolonged sun exposure.
- **Heat resistant** — Slats designed to withstand high heat environments without bowing or losing shape.
- **Wide tape spacing** — The widest in the industry; requires the fewest tapes for a cleaner view.
- **TruGrain® finishes** — Vibrant, rich, realistic grain patterns with no pattern repeats.
- **Performance Plus™ Protection** — The only faux wood products under warranty against fading, yellowing, warping or bowing for your peace of mind.
- **Motorization** — PowerTilt™ with Platinum™ Technology, a battery-powered remote control tilt system.

Heritage® hardwood shutters

- **Warm, rich, 100% natural premium wood.**
- **Truemill® dovetail construction** — For superior craftsmanship, durability and long-term performance.
- **Innovative Integra™ finish** — To bring out the natural beauty of the wood and provide long-lasting protection.
- **Color selection** — An incredible array of 100 colors that never go out of style and any custom color you can envision.
- **Specialty shapes** — A diverse range of specialty shapes to meet all design needs.

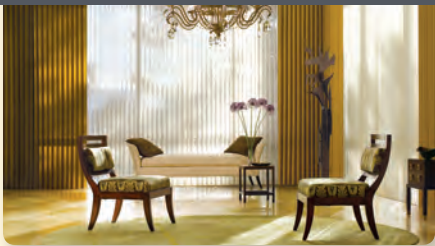

Exclusive to Hunter Douglas.

- **Large expanses** — The perfect solution for sliding glass doors or large expanses with widths up to 192" and heights up to 120".
- **Versatility** — Soft face fabric is permanently bonded to fabric vanes, offering full view-through and discreet privacy.
- **Precise light control** — Translucent and room-darkening vanes rotate to provide 180° of light control.
- **Ultraviolet protection** — Sheers block up to 86% of harmful ultraviolet rays with vanes open and 99% with vanes closed.
- **Daylighting** — Sheer face fabrics diffuse sunlight into the room, reducing the need for interior lighting.

- **Child safety** — Patented SofTrak™ Combination Wand/Cord and Traveling Wand™ systems eliminate dangling cords and provide reliable operation.
- **Counterparts® Refined** — Superior fabric and color coordination with Silhouette® window shadings and Vignette® Modern Roman Shades for select fabrics and colors.
- **Accents by the Yard™ cut yardage** — Available in all face fabrics and colors.
- **Selection** — An array of fashion-forward fabrics and colors in two vane sizes — Classic 3½" and Quintette® 4¾".
- **Motorization** — Patented PowerGlide® 2.0 with Platinum™ Technology for traversing sheers and rotating vanes.

See page 39 for details about Alustra® Luminette® Privacy Sheers.

Luminette® Modern Draperies

Exclusive to Hunter Douglas.

- **Exclusive offering** — Drapery concept utilizes woven face fabrics permanently bonded to vertical fabric vanes similar to Luminette® Privacy Sheers.
- **Design options** — Available in full panel (drapery fabric) and dual panel (drapery and sheer fabrics) applications in widths up to 192".
- **Quick delivery** — Typically 10 days compared to weeks for traditional custom draperies.
- **Durability** — 100% polyester fabrics are dust-resistant and easy to maintain.
- **Motorization** — Provide a motorized drapery solution utilizing patented PowerGlide® 2.0 with Platinum™ Technology.

Modern Precious Metals® aluminum blinds

- **Kid Proof® spring-tempered alloy** — Ensures slats spring back and retain their shape, even after rough handling.
- **Dust Shield™ finish** — Inhibits dust build-up on slats.
- **A “green” choice** — Made from 95% recycled aluminum.
- **Extensive color line** — Over 100 colors to meet your design needs.
- **Reveal™ with MagnaView™** — When tilted closed, it looks like a traditional blind; tilted open, it reveals twice the view of an ordinary horizontal blind.
- **Motorization** — PowerTilt™ with Platinum™ Technology, a battery-powered remote control tilt system.

- **Convenience** — A two-button press on the hand-held remote and battery-powered backlit Platinum™ wireless wall switch operates individual or groups of coverings.
- **Reliability** — Hunter Douglas patented battery-powered systems are unmatched.
- **Quiet motors** — Built with quiet motor technology. Shades are meant to be seen, not heard.
- **Control options** — Choices include a hand-held remote or battery-powered backlit wireless wall switch.
- **Battery life** — Exceeds one year, depending on the usage. Or choose a plug-in power supply and never change a battery.
- **Easy installation** — No complicated wiring necessary.

PowerRise® 2.0 with Platinum™ Technology

For opening and closing shades. Features include:

- Quiet, powerful motor
- Reliable performance
- Longer battery life
- Operates individual or groups of coverings
- Home automation integration available

PowerGlide® 2.0 with Platinum™ Technology

For traversing sheers and rotating vanes. Features include:

- Quiet, robust motor system
- Detachable motor for easy installation and service
- Operates individual or groups of coverings
- Home automation integration available

PowerTilt™ with Platinum™ Technology

For tilting slats open and closed. Features include:

- Precise slat tilting
- Operates individual or groups of coverings
- Home automation integration available

Nantucket™ window shadings

A collection of Silhouette® window shadings.

- **Transformation** — Fabric vanes and sheer facings transform harsh daylight into a soft warm glow, with no cords or tapes to distract from the elegant appearance.
- **Ultraviolet protection** — Shadings block up to 88% of harmful ultraviolet rays with vanes open and 99% with vanes closed.
- **Precise light control** — 3" vanes tilt to provide the exact amount of desired light, reducing the need for electrical light.
- **Proprietary lifting systems** — Unique lifting systems feature convenience and enhanced child safety.
- **Motorization** — Patented PowerRise® 2.0 with Platinum™ Technology. Control shadings with a sleek, hand-held remote or wireless wall switch.

NewStyle® hybrid shutters

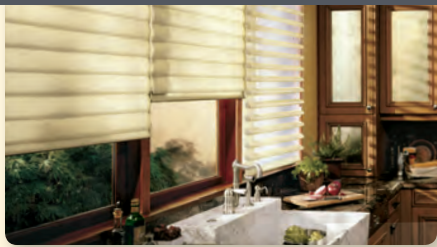

- **Innovative hybrid material** — Combines the look of real wood with the strength, stability and straightness of modern day materials.
- **Durability** — Truemill® dovetail joints for lasting durability and Crosslink™ construction to resist warping and bowing.
- **UltraGrain™ finish** — Authentically replicates the look of real stained wood.
- **Finetech® finish** — For a micro-smooth satin finish that protects shutters from common spills and makes clean-up easy.
- **Specialty shapes** — A wide variety of specialty shapes, both framed and unframed, for stand-alone or continuous applications.

Palm Beach™ polysatin shutters

- **Ultraviolet resistant polysatin compound** — Guaranteed never to fade, crack, warp or peel, and is ideal for moist environments.
- **Aluminum reinforced components** — For exceptional stability to the shutter panels.
- **Duralink™ cufflink connectors** — Securely attach the louvers to the tilt bar for ultimate durability.
- **Neutral shades** — Follow the latest trends and coordinate with the Hunter Douglas Custom Shutter Collection.
- **Specialty shapes** — Framed and unframed options.

Pirouette® window shadings

Exclusive to Hunter Douglas.

- **Invisi-Lift™ system** — Enables the soft horizontal fabric vanes to seemingly float on a single sheer backing.
- **Light control** — Vanes can be flattened or contoured for complete privacy, or fully opened to provide a clear view to the outside.
- **Ultraviolet protection** — Shadings block up to 86% of harmful ultraviolet rays with vanes open and 99% with vanes closed.
- **Selection** — Three fabrics in semi-opaque or room-darkening opacities, two vane sizes and numerous colors.
- **Specialty shapes** — Perfect, imperfect and extended shapes are all available in arches or angles; various sizes to fit many applications.

Continued on next page.

Pirouette® window shadings cont'd

- **Unified look** — Fabric-covered headrail and bottom rail.
- **Two-On-One Headrail** — Two shadings share a common, continuous headrail and operate independently.
- **Counterparts® program** — Select colors and fabrics combine with Luminette® Privacy Sheers.
- **Motorization** — Patented PowerRise® 2.0 with Platinum™ Technology. Control shadings with a sleek, hand-held remote or wireless wall switch.

Provenance® Woven Wood Shades

- **Superior craftsmanship** — Our fabric construction and specialized weaving techniques minimize the bowing and twisting inherent to wood and grass shades.
- **Slim-profile turned headrail** — For narrow mounting depths and door-mounted shades. Reduces mounting depth by 1".
- **Decorative valances** — Four styles to choose from to create a shade that's unique for every home.
- **Light control** — Flat fabric and micropleat liners in light-filtering and room-darkening opacities.
- **Cord shroud** — Reduces access to the lift cords for enhanced child and pet safety.

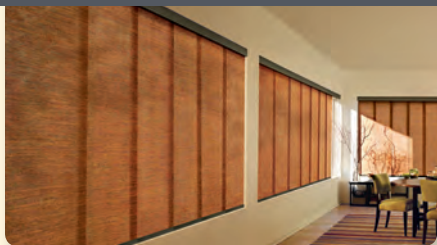

Exclusive to Hunter Douglas.

- **Signature S-Vane™** — Suspended between two sheers, transforms harsh daylight into a soft, warm glow.
- **Ultraviolet protection** — Shadings block up to 88% of harmful ultraviolet rays with vanes open and 99% with vanes closed.
- **Daylighting** — Sheers disperse sunlight deep into the room, reducing the need for electric lights, while fabric vanes tilt for precise light control.
- **Superior view-through** — Proprietary Quartette® 4" vane size offers excellent views without distracting cords or tapes running through the shading.
- **Daytime privacy** — Double layer of sheers allow for outside view, while obscuring the view from the outside in.

- **Solar reflection** — White back sheer reflects solar heat to keep rooms cooler.
- **Child safety** — Patented UltraGlide® lifting system provides enhanced child safety.
- **Selection** — Wide selection of colors, fabrics, opacities and vane sizes are perfect for any décor.
- **Unobstructed view** — Shadings roll completely into the headrail when raised.
- **Specialty shapes** — A wide variety of angles, arches, shapes and sizes to fit nearly any window.
- **Motorization** — Patented PowerRise® 2.0 with Platinum™ Technology. Control shadings with a sleek, hand-held remote or wireless wall switch for enhanced child safety.

See page 38 for details about Alustra® Silhouette® window shadings.

Skyline® Gliding Window Panels

- **Patented dual-channel, single track headrail** — Covers widths up to 32' with a single control while maintaining 2½" headrail depth.
- **Minimal stack back** — Unique hanging system maximizes the view-through.
- **Innovative, interlocking bottom weights** — Add stability and prevent tangling while traversing.
- **Custom-colored hardware** — Available in nine hues that coordinate with each fabric in the collection.
- **Harmony Program™** — Choose from nearly 300 fabrics in multiple product styles.
- **Motorization** — Patented PowerRise® 2.0 with Platinum™ Technology. Control panels with a sleek, hand-held remote or wireless wall switch.

Sommer® Custom Vertical Blinds

- **Numerous design options** — To complement any décor from traditional to contemporary.
- **Product selection** — Six distinct vinyl types and extensive range of designer fabrics.
- **Paramount® Contoured Headrail** — Elegant design reducing light gaps and providing a symmetrical fit. Standard with every order.
- **Specialty systems** — The largest selection of innovative tracks that offer unparalleled flexibility in handling curves, slopes and other challenging window shapes.
- **Four valance options** — Crestover™ Wood Valance, Dust Cover Valance, Eccenture® Custom Valance and SoftChoice® Top Treatments.

Vertical Solutions® Select Vertical Blinds

- **Designer look** — An offering of competitive fabric, vinyl and S-Curve options.
- **PermaTrak® Headrail** — Engineered polymer carriers ensure quiet, trouble-free performance. Standard with every order.
- **PermAlign® Headrail** — Guaranteed to keep vertical blinds in perfect alignment. Included as an upgrade option.
- **Four valance options** — Crestover™ Wood Valance, Dust Cover Valance, Eccenture® Custom Valance and SoftChoice® Top Treatments.

Vignette® Modern Roman Shades

Exclusive to Hunter Douglas.

- **Child safety** — No exposed cords on the back of the shade provide enhanced child safety.
- **Neat appearance** — Clean, uncluttered appearance from inside and outside the home.
- **Vignette® Traditional™ and Tailored™ shades** — Roll up inside the headrail; contoured folds are dressed with every operation, so they always keep their shape.
- **Vignette Tiered™ design option** — Shades neatly stack at the top of the window, reminiscent of traditional Roman shades, and offer a smaller headrail for shallow mounting depths.
- **Innovative lifting systems** — Proprietary UltraGlide® and LiteRise® lifting systems offer convenience and enhanced child safety.

Continued on next page.

- **Specialty shapes** — A wide variety of angles, arches, shapes and sizes to fit nearly any window.
- **Selection** — An array of fabrics, colors and textures complement every decorating style.
- **Durability** — 100% polyester fabrics feature easy care and durability while the white fabric-backing also offers energy efficiency.
- **Opacity** — Choices include semi-sheer, translucent and EveScape™ room-darkening fabric collections.
- **Motorization** — Patented PowerRise® 2.0 with Platinum™ Technology. Control shades with a sleek, hand-held remote or wireless wall switch for enhanced child safety.

See page 41 for details about Alustra® Vignette® Modern Roman Shades.

A signature collection for those who seek out the best in design.

Available exclusively from select Hunter Douglas dealers.

Alustra®
COLLECTION

Alustra® Silhouette® window shadings

- **Exclusive hardware finishes** — Beautifully complement other design elements and hardware accents in the home by pairing one of our exclusive metallic hardware finishes with Alustra® shadings or any fabric from the core line of Silhouette® window shadings.
- **Light-transforming sheers** — Whether you desire a golden glow, a subdued shimmer or warm neutrals, Alustra sheers fuse color with light to create the ambiance you desire for your home.
- **Casual texture** — The exclusive Alustra Voyant™ sheer brings an air of understated beauty and inviting comfort to any room.
- **Counterparts® program** — Stunning coordination with Alustra Luminette® Privacy Sheers to accommodate both windows and doors.

Alustra® Luminette® Privacy Sheers

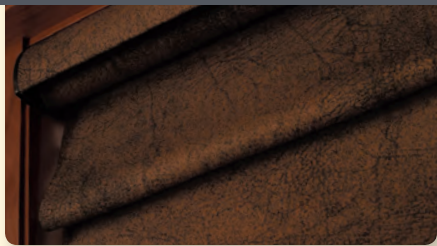

- **Exclusive hardware finishes** — Pair any of the exclusive Alustra® metallic hardware finishes with any Alustra Luminette® or Luminette core line fabric for a truly customized window covering that complements surrounding décor.
- **Exclusive Alustra fabrics** — Light is transformed as it passes through the distinct colors of the Alustra sheer while textured Voyant™ sheers offer a more casual style.
- **Counterparts® program** — Stunning coordination with Alustra Silhouette® window shadings enables you to cover windows and doors with the same exclusive Alustra fabrics and colors.

Alustra® Duette® honeycomb shades

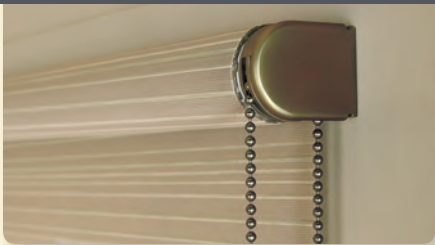

- **Exclusive hardware finishes** — Top shades in one of our Alustra® exclusive hardware finishes to beautifully complement any Alustra Duette® fabric and enhance a home's décor.
- **Exclusive Alustra fabrics** — The unique design of Architella® Sheer Opalescence™ features Whisper™ sheer fabric layered over the top of shimmering Opalescence fabric for unsurpassed beauty.
- **Custom combinations** — Achieve limitless looks by combining Alustra Duette and 1¼" core line Duette fabrics with the exclusive Alustra hardware finishes.

Alustra® Vignette® Modern Roman Shades

- **Exclusive Traditional™ 6" contoured fold** — Creates the look of custom Roman shades with dramatic presence and exquisite fabrics.
- **Exclusive fabric-covered rotator rail** — Our attention to detail extends all the way to this fabric-covered rotator rail for a refined look from top to bottom with no exposed hardware.
- **Exclusive Alustra® fabrics** — Fabrics range from natural and linen-inspired patterns to inviting and subtle textures.

Alustra® Woven Textures® shades

- **Signature fabrics** — Unique combinations of fibers and textures create incomparable fabrics, offering a light-filtering alternative to solar screens.
- **Chelsea™ roller system** — Designed for those who want the simplicity of a roller shade with sophisticated upgraded metal hardware that does not need to be covered by a cassette. In Brushed Nickel, Antique Gold or Bronze Shimmer™ finishes.
- **PowerRise® 2.0 with Platinum™ Technology** — Takes control to a whole new level. This patented, battery-powered wireless control system offers the convenience of technology without cords or additional wiring for easy operation with the touch of a button; operates with both radio wave and infrared signals.

Alustra® Woven Textures® Roman Shades

- **Batten-back construction** — Creates a soft, tailored look when lowered and defined folds when raised for enhanced functionality and performance on Roman shades.
- **Headrail options** — Choose between the Standard metal headrail and the Traditional wooden headrail to meet all your customers' design, privacy and light control needs.
- **Independently-operated liner** — Offers both privacy and light control with Roman shades without sacrificing view.

Product Maintenance

Designed for easy care.

Most Hunter Douglas soft window treatments do not require frequent cleaning. A light dusting or gentle vacuuming on a regular basis will keep them looking new for years.

- All Hunter Douglas products are made for a lifetime of wear-resistant, trouble-free performance.
- Many shade fabrics are specially treated to repel dust and dirt.
- Questions? Contact your Hunter Douglas fabricator or call the Hunter Douglas Customer Information Center at 1-800-501-8364.

Energy Efficiency

All our products have an R-value (a measurement of a product's ability to resist heat flow, keeping heat inside during the winter) and a solar heat gain coefficient (a measurement of a product's ability to reduce heat gain from the sun). They also provide ultraviolet protection and sound absorption. Please refer to the Hunter Douglas *Reference Guide* for more detailed information.
