STAND-ALONE SPECIALTY SHAPE UNFRAMED AND FRAMED ORDER FORM KEY

Use the following key as a guide when completing the specialty shapes order form. Items marked with an asterisk (*) require a surcharge.

1 Specialty Type: *Specialty types A1-A7 do not require a template.*

Following types are available in *Heritance®, NewStyle®, Palm Beach™ and Bridgeway®*:

A1 = Perfect arch
A2L = Left quarter circle
A2R = Right quarter circle
A4 = Extended eyebrow or extended arch
A5 = Eyebrow

Following types are available in ***Heritance, NewStyle and Bridgeway***:

A3 = Circle (two individual A1 arches)
A6L = Extended left quarter eyebrow
A6R = Extended right quarter eyebrow
A7L = Left angle or extended left angle
A7R = Right angle or extended right angle

Specialty types T1-T4 require a template and are only available in Heritance with horizontal louvers.

T1 = Oval **T2** = Circle **T3** = Hexagon **T4** = Octagon

2 Product Code: **HH** = Heritance hardwood shutters **NS** = NewStyle hybrid shutters **PB** = Palm Beach polysatin shutters **BW** = Bridgeway specialty shapes

3 Color Number: Specify color number. Refer to the sampling materials for the product being ordered. With Bridgeway specialty shapes, refer to the color coordination chart to coordinate with other window coverings, if desired.

4 Hinge Color Number: Specify hinge color number. ***Framed HH & NS A1-A7 specialty shapes only.***

009 = White **010** = Off-White **012 = Buttercup**
006 = Brass Finish **007** = Antique Brass Finish **008** = Brushed Nickel Finish
011 = Stainless Steel* **022** = Venetian Bronze **023** = Satin Black
998 = Custom Painted Color*

5 Mounting Style:

OM = Outside mount. The shape overlaps the window opening. (Not available in Palm Beach unframed.)
IM = Inside mount. The shape fits within the window opening.
EX = Exact. Ordered dimensions equal the outside dimensions of the specialty shape. (Only available on unframed specialty shapes HH, NS & BW; not recommended for A4, A6 and A7 shapes.)

6 Frame Type: *Not applicable to Bridgeway.*

Palm Beach:
Z21 = Standard Z **L21** = Standard L
Z22 = Decorative Z **C21** = Deluxe Casing
S22 = Decorative Z Sill **S21** = Deluxe Casing Sill
Z23 = Colonial Z

Heritance:
L1 = Standard L
L2 = Trim L
Z1 = Standard Z
Z2 = Deluxe Z
Z3 = Colonial Z
Z4 = Tilt-in Z

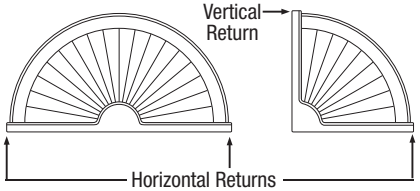
NewStyle:
L11 = Standard L
L12 = Trim L
L13 = Extended Trim L
Z11 = Tilt-in Z
Z12 = Colonial Z
Z13 = Standard Z

Note for HH & NS: If Sill frame is needed add **-S**. When using L-frame instead of Sill add **-L**.

7 Returns: *Unframed specialty shapes only. Not applicable to Palm Beach.*

YES = Include returns on the specialty shape.
NO = Do not include returns on the specialty shape; or inside mount (IM).

Returns on quarter circles and extended quarter eyebrows are both vertical and horizontal, as shown at right. If a return is desired in one direction, but not in the other, indicate this in Special Instructions.

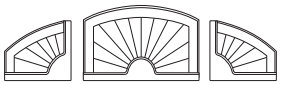


Note: Returns add 1/2" per side or 1" overall. Returns are not available on T1 - T4 specialty shapes or inside mount applications.

8 Companion Specialty:

YES = This is a companion specialty.
NO = This is not a companion specialty.

Companion specialty example:



9 Buildout: Buildout projection comes preattached to the back of the specialty shape.

1 = Single buildout projection* **2** = Double buildout projection*

	NewStyle Bridgeway	Heritance Unframed	Heritance & NewStyle Framed L1, L11	Heritance & NewStyle Framed L2, L12, L13	Palm Beach L21, C21, S21
Single Buildout	1"	1"	1 1/8"	1 3/8"	1/2"
Double Buildout	2"	2"	2 1/4"	2 3/4"	1"

10 Louver Options: *Available only in horizontal louver applications on Heritance T1-T4 and Palm Beach.*

Specify louver size: Heritance = **2 1/2"**, **3 1/2"** or **4 1/2"** Palm Beach = **2 1/2"** or **3 1/2"**

11 Tilt Options: *Applicable only to Heritance T1-T4 and Palm Beach.*

Heritance: **F** = Front tilt **M** = Manual tilt with individually operable louvers

Palm Beach: **F** = Front tilt **R** = Rear tilt (Only if arch has full length straight side or vertical support.)

12 Vertical Support: *Available in Palm Beach only*

EQ = Vertical support placed to provide equally divided openings.
For uneven placement, always start from the left, indicate distance in inches from left side of shutter to center of each vertical support.
Note: In order to achieve a consistent look, order the shutter below and the arch above with the same number of panels and sections. Vertical supports are **required** on shapes over 30" wide.

13 Extension Pole (Retractable 53"- 96"): Specify quantity: 1, 2, etc.

14 Price: See grid in the appropriate section of the Hunter Douglas *Full-Line Reference Guide & Base Price List*.

15 Specialty Shape Types and Measurement Requirements:

See size specifications in the appropriate section of the Hunter Douglas *Full-Line Reference Guide & Base Price List* or Hunter Douglas Shutter Collection *Configuration Guide*.

16 Specialty Shapes with Horizontal Louvers that Require Templates, Available Only in Heritance:

T1 = Oval T2 = Circle T3 = Hexagon T4 = Octagon

Specialty types T1-T4 require a template and are only available in Heritance with horizontal louvers. Room, PO#, sidemark, opening#, and measurements must be noted on both the template and order form. Note that templates will affect lead time.

17 Measurements and Overlaps:

Frame overlaps are required on Outside Mount applications: framed & unframed stand-alone specialties.

Stand-Alone with NO Shutter Below

Overlaps are added to opening width to assure louver rotation and space around opening for installation fasteners.
Use following guidelines: Min = 3/4", Max = 1 1/4"

Stand-Alone Over Shutter

Overlaps assist in aligning the specialty shape to the finished width of the shutter that sits below the shape whether framed or unframed specialty is specified.

Heritance		Palm Beach
L1 = 1 5/8"	L2 = 1 3/8"	L21 = 1 9/16"
Z1 = 7/8"	Z2 = 1 15/16"	C21 = 2 15/16"
Z3 = 1 5/8"	Z4 = 1"	S21 = 1 9/16"

NewStyle
L12, L13 = 1 3/8"
L11 = 1 5/8" Z11 = 1"
Z12 = 1 5/8" Z13 = 1 7/8"

First determine frame to be specified for the shutter below the specialty. Use the overlap chart above and record the recommended overlap in the overlap boxes 16.

Width for Pricing = Opening width plus the left and right overlap.

Variable Radius: Worksheets and order forms have been designed to effectively replace templates for most openings. Variable radius openings are an exception and require an accurate template. If you have a variable radius arch such as the three examples to the left, send a template. **Note that templates affect lead time and may incur additional surcharges.**
